

Large Parts Line

AUTOMATIC COATING LIMITED

Your Powder Coating / Painting Job Shop

ACL is proud to announce the commissioning of the new large parts line.

The new line design allows quick switch from aluminum to steel pretreatments in order to meet all customer's requirements.

- * 5'x7'x35' part opening
- * 240' long completely stainless steel washer
- * 800' conveyor, 4000 lbs capacity
- * State of the art spray booth & powder recovery system
- * Extrusion cut to length service

Load & unload area

Extrusions are entering the spray booth for the electrostatic powder coating.

Coated extrusions are exiting the spray booth and will now enter the cure oven to complete processing.

3' x 6' 10" x 31' frames are cooled and inspected before packaging.

This large parts line compliments ACL's extensive coating facility

- * 70,000 sq. feet
- * Powder coating line with 5 stage wash
- 4'x 8' 12' opening
- * Multi Coat Line
- * Fluid bed dip up to 24' long (mil spec)
- * Metal stripping burnoff 5'x 9'x 12'
- * 9'x 9'x 24'x 10 ton multi oven batch system
- * 6 automated gritblasting wheelabrators of all sizes
- * Indoor loading docks with 10 ton overhead crane
