Mr. Brad Bamford  
President  
Pipe Viper International  
211 Nugget Ave,  
Toronto, Ontario  
M1S 3B1

Dear Mr. Bamford

This letter is to express GAZ Metro's appreciation to Pipe Viper International for the outstanding Performance on the Ste. Anne DeBellevue 4km 20" pipeline rehabilitation project. Prior to Pipe Viper Internationals involvement, the pipe coating removal phase of the project was behind schedule and well below our standards for environmental protection.

Pipe Viper International was able to mobilize quickly, work efficiently, finish well ahead of schedule and performed to the highest standards of environmental protection. Our environmental team was thrilled with the automated removal and debris collection with no airborne particles. The finished surface of the pipe after Pipe Viper stripping was outstanding and allowed for us to inspect the pipe quickly and more effectively.

Most impressively Pipe Viper International was able to work efficiently through tough and rainy conditions and worked professionally with our extended team and contractors.

Once again, thank you for a job well done.

Regards

  
Gaston Leclerc

Gaz Metro
