

The PipeViper Coating Removal * Patent Pending
The safest and most environmentally friendly
Solution to pipe line rehabilitation.

PipeViper is the only cost effective and portable coating removal system that efficiently addresses all environmental and health and safety concerns in removing virtually any existing coating on live or depressurized oil & gas pipelines.

This patent pending process removes all coating, cleans the porosity of the pipe, contains and properly bags waste to meet local environmental standards.

THE PIPE VIPER WAY IS THE SAFEST WAY

PipeViper 1 Automated Coating Removal System

*Patent Pending

* This encapsulated system prevents friables / airbornes, even asbestos from effecting the workers and the environment

*Automated Coating Removal system gives a super clean contamination free surface

* Field proven results

Polymethelene Speed

3" to 6" depending on degree of removal

Types of Coating Removed

- * Tape wrap, single and multi-layered
- * Coal tar enamel
- * Asbestos laden
- * PE.PP. 250 mil
- * Epoxy Coatings
- * Wax with paper wrap
- * Asphalt with stone guard
- * PolyUrea - 30+mil
- * Fusion bonden epoxy (FBE)
- * 2 and 3 layer PolyOlefin Systems
- * Clock Springs

Pipeline Services Offered:

- * PipeViper 1 Coating Removal **Patent Pending*
- * PipeViper 2 Abrasive Blasting **Patent Pending*
- * PipeViper 3 Field Coating Application **Patent Pending*
- * In Shop Coating Application
- * Laboratory Testing
- * Girth Weld Coating
- * General above and below field coating

ENVIRONMENTALLY FRIENDLY APPROACH

* The only environmentally friendly pipe stripping, blasting and coating unit

* Under constant vacuum and all solids are separated through unique closed loop filtration system

* Does not require ditch lining

* Waste coating residual processed into bags

* Provides a high level of surface cleanliness, which enables immediate pipeline integrity inspection
