THE PIPE VIPER WAY IS THE SAFEST WAY

PipeViper 3 Field Coating Application

* Patent Pending

- * The automated coating system applies a uniform film with near perfect transfer efficiency and no visible overspray in the ditch
- * The thickness can be calibrated to your specification target, 25 to 35 mils
- * Field proven results of 27 to 33 mils
- * Few Holidays to repair
ie. average of 4 holidays in 160' x 26" day in day out
- * High level of quality greatly reduces inspection time and repairs

Typical Travel Speeds for Pipe Viper Plural Spray Coating at 30 Mils

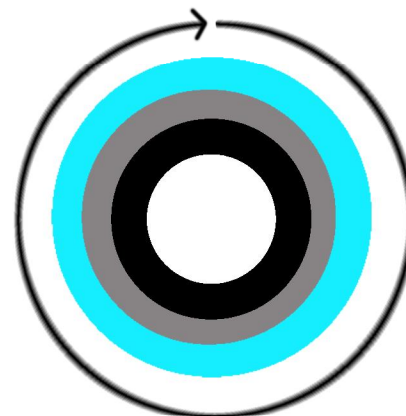

dia	ft / hr	meters/hr
16	301.0	94.0
20	240.8	75.2
24	200.6	62.7
26	185.2	57.9
30	160.5	50.2
36	133.8	41.8
42	114.6	35.8
48	100.3	31.3
56	86.0	26.9
60	80.3	25.1

Pipeline Services Offered:

- * PipeViper 1 Coating Removal **Patent Pending*
- * PipeViper 2 Abrasive Blasting **Patent Pending*
- * PipeViper 3 Field Coating Application **Patent Pending*
- * In Shop Coating Application
- * Laboratory Testing
- * Girth Weld Coating
- * General above and below ground field coating
